

Product Information

Organic and Nature, Inc.'s Antimicrobial Hand Soap thoroughly removes dirt while eliminating a broad range of common germs. The mild formula is gentle on your skin and enriched with moisturizers to help prevent dry hands.

This liquid hand soap removes and kills a broad range of common institutional and household germs. It is effective against staphylococcus, streptococcus, E. Coli, and other bacterial strains. Its mild formula prevents chapping, important for those who wash their hands frequently.

Ingredients: Surfactants blended with sodium lauryl sulfate, and chloroxylenol as the antimicrobial active ingredient; natural spring water; floral fragrance plus organic aloe vera gel.

Directions - Apply liberal amount to hands, work to lather for 20 seconds, and then rinse with water.

In addition to being an excellent soap for hand washing in bathrooms and washrooms, it can also be used as a body wash. Safer, environmentally friendly and effective against germs, this Antimicrobial Soap is preferable to common soaps.

Available in 800 ml. bag-in-box, 16 oz. pumps and 1-gallon jugs

Safety Information

Organic and Nature™ Antimicrobial Soap does not pose a threat to humans, pets or the environment. We recommend all household products not be ingested.

Benefits of Organic and Nature™ Anti-Microbial Soap

- Mild on hands. Powerful on dirt and germs
- Non-Toxic & Biodegradable
- Contains no harsh chemicals
- Anti-microbial
- Prevents chapping
- Great scent
- Can be used to wash dishes and utensils
- Safer for adults, children and pets
- Safer for the environment

Why Organic and Nature™?

Organic and Nature™ products are safer, and allow institutions to create healthier conditions by reducing their exposure to potentially harmful chemical-based formulas. Even a simple item such as soap, when it is applied to hands, some of the soap is absorbed through skin. You want to be sure that the soap you use is safer.

Organic and Nature™ has a complete product line consisting of industrial cleaners, industrial maintenance products, and food service products.

- Safer for people;
- Complete line of products;
- Promotes a positive image for your organization;
- Reduced liability exposure.
