

### Product Description:

Organic and Nature™ Safe Floor Stripper represents a revolutionary chemically safe, fume-free alternative in Floor Care products. We have eliminated the highly volatile or otherwise hazardous chemicals that can irritate the eyes, skin, and respiratory system causing burns, breathing impairment, depression of the central nervous system, occupational asthma and allergies.

The Safe Floor Stripper offers a unique, pH neutral, non-corrosive alternative that is completely free of VOCs and harmful solvents, yet offers the high performance and quick dry time of conventional products. Safe Floor Stripper is safe to handle, safe to breath and easy to use. This product is designed for use with the Organic and Nature™ Safe Floor Finish.

### Usage Instructions:

1. Add 1 part Organic and Nature™ Safe Floor Stripper to 4 parts water\*. For removing heavy wax build-up, use 1 part product to 2 parts water.
2. Apply liberal amounts of stripper solution to the floor with a mop and allow to set for 5-10 minutes.
3. Scrub thoroughly using a stripping pad. For best results use a black or brown pad to break film.
4. Remove old finish and stripper solution with a clean mop, wet/dry vacuum, or an automatic scrubber.
5. Thoroughly rinse floor with clean water.
6. Let floor dry completely. Apply appropriate VOC-Free Floor Finish.

*\*For faster results use hot or warm water.*

### Indoor Air Quality and Volatile Organic Compounds

Most floor strippers contain Volatile Organic Compounds (VOCs) that react with sunlight, heat and other environmental factor to release particles into the air. These particles along with dust, allergens and other pollutants combine to create an unhealthy breathing environment and poor Indoor Air Quality (IAQ). Poor IAQ can lead to infections, irritations, asthma related reactions, headaches and allergic reactions. Furthermore, these cleaners often leave some residue or remnants of chemicals that can be harmful when coming in contact with skin or food.

Organic and Nature™ Safe Floor Stripper is completely natural, non-toxic and does not contain any VOCs. When used as part of a program it is effective in improving Indoor Air Quality thus creating a healthier environment.

### Benefits of Organic and Nature™ Safe Floor Stripper

- High Powered Stripping Action Penetrates Tough Finishes
- VOC-Free Formula emits No Toxic Fumes or Vapors
- Non-Flammable, Non-corrosive and pH Neutral
- Safe to Handle and Dispose

### Available Sizes:

- 1 Gal. Jug
- 5 Gal. Pail

### Applications

- Schools & day-care centers
- Universities
- High traffic areas
- Restaurants
- Healthcare facilities
- Lobbies
- stores
- Office buildings

## Product Description:

Technology has taken a quantum leap forward in the science of floor care by creating a new, completely VOC-free, non-buff floor finish. Utilizing a new, proprietary technology, all of the highly volatile and hazardous solvents present in traditional floor care have been eliminated for a safer, fume-free environment.

The benefits of this technology are three fold:

1. The materials used in this product have superior leveling, clarity and gloss so that you achieve the shine of traditional UHS finishes without the added time, labor and equipment.
2. This technology is specifically designed to give you an extremely durable finish for those high traffic areas.
3. Being VOC-free not only means the products are odor free, but also they are much safer to handle and use thus creating a safer environment.

Available in 1 gallon jugs and 5 gallon pails.

## Usage Instructions:

### For Best Results:

1. Do not dilute
2. Do not use on surfaces colder than 40°F

### Directions:

1. Strip floor using Organic and Nature Safe Floor Stripper, or, if you aren't removing Organic and Nature Safe Floor Finish, use stripper designed by finish manufacturer.
2. Apply 2 -3 uniform coats of Safe Floor Finish using a clean finish mop. Depending on depth of gloss desired, additional coats can be applied.
3. Allow 30-40 minutes drying time between coats. Temperature, humidity and ventilation may affect drying time. To check, surface should be dry to the touch.

### Maintenance:

1. Damp mop or sweep as desired.
2. If desired, spray buff to enhance gloss.
3. To recoat, sweep and damp mop surface; apply an additional coat of Organic and Nature Safe Floor Finish and allow to dry.

## Indoor Air Quality and Volatile Organic Compounds

Most floor strippers contain Volatile Organic Compounds (VOCs) that react with sunlight, heat and other environmental factor to release particles into the air. These particles along with dust, allergens and other pollutants combine to create an unhealthy breathing environment and poor Indoor Air Quality (IAQ). Poor IAQ can lead to infections, irritations, asthma related reactions, headaches and allergic reactions. Furthermore, these cleaners often leave some residue or remnants of chemicals that can be harmful when coming in contact with skin or food.

Organic and Nature™ Safe Floor Stripper is completely natural, non-toxic and does not contain any VOCs. When used as part of a program it is effective in improving Indoor Air Quality thus creating a healthier environment.

## Benefits of Organic and Nature™ Safe Floor Finish

- Premium Gloss & Durability for High Traffic Areas
- Non-Buff Maintenance Formula Saves Time & Money
- Extended Wear, provides long lasting shine with fewer coats
- VOC-FREE, No Odor & No Toxic Fumes!

## For Use On:

- Asphalt
- Linoleum
- Rubber
- Terrazzo
- All other resilient floor surfaces
- Concrete and Stone
- Marble
- Sealed Wood
- Vinyl

## PROPERTIES & SPECIFICATIONS

CHARACTERISTIC	SPECIFICATION
<b>Color (Dried Film)</b>	Crystal Clear
<b>Coverage</b>	2,500– 4,000 sq.ft. /gal
<b>Drying Time</b>	15 minutes
<b>Gloss (ASTM 1455-87)</b>	(Ex: 1 coat = 80-85 2 coats=97-98)
<b>Burnish Speed</b>	Non-buff, None Needed
<b>Heel mark Resistance</b>	Excellent
<b>Coats</b>	1-2 coats
<b>Ph</b>	7.5 +/- 0.5
<b>Odor</b>	None
<b>Percent Volatile (VOC's)</b>	0 %
<b>Shelf Life</b>	1 year
<b>Biodegradability</b>	Fully Biodegradable
